

WILLKIE WOULD
SWING U. S. FROM
TOTALITARIANISM

Candidate Given Great
Welcome on His Tour
in California

Aboard Willkie train enroute to San Francisco, Sept. 20—(AP)—After calling for immediate, scientific tax revision and "a chance for business to make a profit", Wendell L. Willkie advocated today the development of American peacetime aviation into a major industry.

In a brief talk prepared for a train-side audience at Bakersfield, Calif., the Republican presidential nominee said:

"War planes? Yes! We must have them. We should have had them years ago. But great as is that need, the need of future peacetime aviation will be even greater.

"For it is the performance of peacetime aviation—not the temporary emergency of preparedness—that will bring this nation into its rightful position of leadership in world aviation."

Willkie discussed this industry specifically as a follow-up to his address last night in the brilliantly-lighted Los Angeles Coliseum, where he offered a cheering crowd four steps which he said would "turn this country around" from a totalitarian system. He listed them as follows:

"1. The rules under which business is conducted must be clear and must be stable.

"2. Government policies affecting business should be consistent.

"3. Government competition with business must be kept within well-defined limits. It must not stop the flow of capital into new productive enterprise.

"4. Business must be given a chance to make a profit."

Suggests Tax Commission

In addition, Willkie suggested the creation of a special commission to look into the whole revenue situation.

"This tax structure that the New Deal has erected," he said, "is scientific, repressive and loaded with punitive measures. It is unjust and discriminatory. It is driving capital out of productive employment."

The audience, estimated by Inspector J. V. Henry of the Sheriff's office at 70,000, applauded, as it did when the nominee said:

"If you people want a completely regular economy, if you want a totalitarian system of some sort, don't vote for me. I'm headed in just the opposite direction."

Willkie, wearing shell-rimmed spectacles to read his 30-minute address, appeared tiny as he stood on a low platform at one end of the huge oval structure. The moon beamed brightly in the background, but its glow was dimmed by the floodlights which shone upon the candidate.

His entrance in a decorated open car was timed for the end of an introductory speech by Joseph Scott, who placed Herbert Hoover's name before the 1932 Republican convention. Riding with her husband in the chill evening was Mrs. Willkie, a fur coat thrown over her shoulders.

"We Want Willkie"
There was a roar of applause as they drove around the coliseum, and the cry "We want Willkie" arose from thousands.

Waving and smiling, Willkie stepped at once to the speakers' stand. When he finished his address, broadcast nationally, his portrait was outlined in burning lights at the far end of the field. It was the signal for a long display of fireworks.

Mr. and Mrs. Willkie left at once for the Hollywood Bowl to greet members of the film colony at a rally. Robert Montgomery, the actor, pulled the nominee from the wings to the microphone on the run.

Willkie, catching his breath, pumped Montgomery's hand. Then, standing in front of the blue, yellow and red orchestra

Watchman's Pentant for Hero's Role
Finally Lands His in Custody of Law

St. Charles, Ill., Sept. 20—(AP)—What Sheriff Marcus Damisch described as a pentant for a hero's role has caused the arrest of night watchman Frank Vershaw on a charge of arson.

Damisch said that Vershaw, watchman for a manufacturing firm, had called the sheriff's office several times in recent months to report various acts of night-time violence. One time he claimed that he had driven off a gang of robbers, on another occasion he declared he had discovered a bomb.

The sheriff said he became suspicious when he noted that

nothing ever happened on Vershaw's night off.

Last week the watchman called the sheriff's office and the fire department to report that the plant had been on fire but that he had extinguished the blaze.

Damisch said that when he accused Vershaw of having started the fire, the man confessed and at the same time, the sheriff added, admitted that the other incidents were the only figments of his imagination.

"I wanted to be a hero," Damisch quoted the watchman as saying. He was held in \$5,000 bond.

Premonition

Jefferson City, Mo., Sept. 20—(AP)—"I thought when I was building the death house x x x that I would die in it," husky Robert West remarked to officers.

He did, along with Chester Jackson, a negro, early today.

They went to the lethal gas chamber of Missouri penitentiary together, as sweetheart slayers.

West, 24-year-old St. Louisan, quarried rock for the death house while serving a robbery term. After his release, he tried in vain to renew his childhood courtship of Mrs. Vivian Davidson, then estranged from her husband. He was convicted of killing her.

Married Men Not
Deferred in New
Rules for Draft

Washington, Sept. 20—(AP)—Reversing a previous opinion, selective service officials stated today that married men would not be deferred automatically as a class from compulsory training.

While it was expected that most fathers and husbands would be deferred, the deferment decisions must be made by local draft boards on the merits of each individual case, they said.

In the World War draft, 344,872 men claimed deferment because of recent marriages, but 122,563 of them were re-classified after investigation and placed in the first group subject to call.

Draft selection regulations as originally planned would have instructed local boards, in view of the small number of men needed, to defer all married men.

However, it was found that such regulations would conflict with the law, which requires that each case be decided on its merits, with the final decision resting with the local board unless appealed.

The question of dependency will not be assumed, and the boards have wide latitude in determining whether wives, relatives or wards actually are dependent upon the earned income of a man claiming deferment.

MEDICAL CALCULATION

London, Sept. 20—(AP)—Based on its calculation on the recent bombings of London, "The Lancet", British medical journal, said today the chances of a bomb falling within 50 yards of any given person were only one in 280,000.

Cause of Anxiety

London, Sept. 20—(AP)—What do those fearless members of bomb disposal units think about while dealing with unexploded bombs?

A member of one crew seated astride a monster bomb signalled frantically and shouted "Get me out of here!"

Hauled up, he explained his anxiety by pointing down in the hole at a huge sewer rat.

ROOSEVELT SAYS
DICTATORS DARE
NOT SEEK VOTES

President Lets Listeners
Draw Their Own
Conclusions

Philadelphia, Sept. 20—(AP)—President Roosevelt asserted today the "complete and enduring safety of our form of government" rests on maintaining free elections—and added that "no dictator in history has ever dared to run the gauntlet" of such an election.

Yet, he said, in an address climaxing observance of the University of Pennsylvania's 200th anniversary, there still were some well-meaning persons who had suggested recently that the right to vote be denied people who had lost their jobs and were on relief.

"As long as periodic free elections survive, no set of people can permanently control government. In the maintenance of free elections rests the complete and enduring safety of our form of government."

"No dictator in history has ever dared to run the gauntlet of a really free election."

Roosevelt spoke in Convention Hall, with three radio networks carrying his words to the nation. It was an address which the White House had declined either before or after its delivery to label political or non-political.

Draw Own Conclusions

Listeners were allowed to draw any conclusions they desired.

The Chief Executive, who had made a morning inspection of the big Philadelphia navy yard, and said he is now convinced the nation is learning speed in armament construction, spoke of current times as a "strange period of relapse in the history of the civilization of the world."

Reciting some of the things which the new deal has sponsored, he added:

"These are some of the new instruments of social justice which America has forged to meet the new conditions of industry, agriculture, finance and labor—conditions which had been neglected too long and which were beginning to endanger our internal security."

"These are the means which our own generation have adopted to overcome the threats to economic democracy in our land—threats which in other lands led quickly to political despotism."

Drifts Back to Conflict

Drifting back to what he called a conflict between the views of Alexander Hamilton and Thomas Jefferson in the early days of the republic, Roosevelt said Hamilton sincerely believed in the superiority of government by a small group of public-spirited and usually wealthy citizens.

Jefferson, he said, advocated government by representatives of all the people. And it was to Jefferson's belief that the Chief Executive subscribed, because Jefferson "recognized that it was our system of free, unhampered elections which was the surest guaranty of popular government."

"On candidates and on election issues," Roosevelt said, "I would rather trust the aggregate judgment of the people."

Married Man Is
Sought in Death
of Choir Singer

Pittsfield, Mass., Sept. 20—(AP)—The bludgeoned body of Miss Madeline Clark, attractive 44-year-old choir-singer was found floating today in Farnham's reservoir approximately 90 feet from a blood-daubed automobile, described as belonging to the man who escorted her from church last night.

Immediately after a medical examiner issued a "murder" report, Assistant District Attorney Harold R. Goewey announced that witnesses had identified Miss Clark's companion of last night as Sylvester Dellear, 51-year-old Pittsfield man, married but separated from his wife.

While police from Pittsfield and nearby Lenox dragged the reservoir, after finding only a single trail leading to the water, Massachusetts state police transmitted on a region-wide teletype system a call to "arrest and hold" Dellear "for questioning on murder case."

The search for Dellear and Miss Clark, a soprano in the choir of St. Helene's chapel in Lenox, who was described by friends as "very

Dixon Barber Retires After 47 Years

James Allen, above, who is the last of the pioneer barbers to cease activity, has disposed of his fixtures and business at 705 Depot avenue to Joseph Sharkey. The new proprietor is making some changes in the building and will open up the establishment Monday.

With his retirement from business Dixon loses one of its most picturesque characters. Jim, who has passed his 71st birthday, had occupied the same room since May 14, 1894. The building in which his shop was located was purchased by the late James Wheat, for many years conductor on the Northwestern's Sterling passenger, who made improvements and modernized the structure. Jim continued to watch the development of Dixon and many improvements from his barber shop and is deserving of the rest which he is taking by retiring from business.

Makes Dixon Her Home

Mrs. William H. Green, of Brooklyn, N. Y., sister of Mrs. L. E. Young and Edward and Carl Newman, has chosen to make her home with Mr. and Mrs. Young, 321 E. Fellows street.

After Many Years

Every window in the court house is being repainted and repaired, the first work of this kind to be done since the building was erected. Lester Messner has begun work, burning off the small amount of old paint remaining, repainting the frames and casings and putting the panes of glass which were in danger of falling out.

Fire Drills at Schools

Children and students in all of the schools of Dixon were given the first fire drill yesterday afternoon when Fire Chief Sam Cramer made a visit to each school, emptying the buildings when the alarms were sounded. Chief Cramer reports a total of 2,298 pupils and students in all of the schools of Dixon as follows: high school, 788; St. Mary's parochial school, 280; Lincoln school, 500; North Central school, 350; South Central school, 360, plus 20 children.

More Than 30,000
Attend Sauerkraut
Day at Forreston

Forreston, Sept. 20—A day opening with clouded skies, turning warm and sunshiny, made a perfect setting for the usual large crowd who came to Forreston Thursday for the 25th annual sauerkraut festival.

It is estimated that more than 30,000 people were in attendance, with more coming for the evening festivities.

The concessions, 144 of them, covered seven blocks of the business section and the throngs were patronizing them before the parade started at 10 o'clock.

Many former Forrestonites were back to renew acquaintances.

Many Fine Floats

The parade, led by the Rochelle band, had many fine floats. Miss Betty Garman, daughter of Mr. and Mrs. Milo Garman, was Sauerkraut queen and rode on a beautiful float which was decorated by the senior class of Forreston high school. Her attendants were the Misses Flossie Norris, daughter of Mr. and Mrs. Ernest Norris of Maryland Station and Jane Bogue.

'Implications of
Third Term Issue
Hit at Religion'

Washington, Sept. 20—(AP)—Asserting that "the implications of the third-term issue strike the hardest at free religion", a Baptist editor urged today that Catholics, Protestants and Jews unite in sponsoring a constitutional amendment to limit the term of the President.

The proposal was made by Stanley I. Stuber, editor of the United States Baptist, Chicago, at Senate judiciary sub-committee hearings on a constitutional amendment to provide for a single presidential term of six years.

"As a religious editor," he said, "I fear that any third-term administration will, by force of economic circumstances and world conditions, establish here a dictatorship in principle if not in fact, and this would mean the end of religious liberty and the individual conscience. No democracy can endure the loss of these fundamental rights."

Ex-Chairman Opposed

Vance C. McCormick, one-time chairman of the Democratic national committee and now a Harrisburg, Pa. editor, told the committee that "to accept the idea that any man is indispensable as the head of the government of this nation can only mean democracy has failed, because if there is only one man capable of administering our government, his death or incapacity would mean the destruction of the government."

Quotation

London, Sept. 20—(AP)—"Don't worry—they'll get it back," was Prime Minister Winston Churchill's retort when crowds demanded reprisals against Berlin as he was inspecting bombed houses in the Battersea area of London.

Churchill was accompanied by Chancellor of the Exchequer Sir Kingsley Wood on a tour yesterday. The quotation appeared in the press today.

The War Today!

BY DEWITT MACKENZIE

They say truly who claim that the desert offers its own defense against intrusion by man, and the British are taking full advantage of this fact in dealing with Mussolini's invasion of their Egyptian stronghold across the death-sands of the Sahara.

Fascist Marshal Graziani—hard-boiled veteran of desert warfare—has thrust his columns more than 60 miles inside the Egyptian border from Libya along the Mediterranean coast, without much opposition from enemy infantry. The wily British have withdrawn their defending forces and let nature battle for them.

That is an important point to keep in mind in considering the rapidity of the Italian advance. Without detracting from Graziani's achievement it must be said it is the result of a victory at arms but its chief significance is

Watchers in Chicago Polls Must be
Stout-Hearted, Says GOP Chairman

Chicago, Sept. 20—(AP)—Only stout-hearted, public-spirited citizens are wanted by the Republican central committee of Cook county to serve as poll watchers on election day.

"A watcher must have fortitude," said John T. Dempsey, chairman of the committee, in a booklet setting forth all known methods of vote frauds and ways in which they may be prevented.

One portion of the booklet, addressed to "the election day volunteer who never before has served at the polls and who, through a sense of idealism, may offer his or her assistance in a precinct in one of Chicago's blighted areas," reads as follows: "From the moment you step

Axis Diplomacy—

Germany, Italy plan next war move in Rome conversations; attention focused on Egypt, Berlin reports, with offer of guarantee of independence if no opposition offered to Italian thrust eastward.

(By The Associated Press)

Indications that Germany and Italy are trying to draw Spain into the war against Britain, with French Morocco and possibly the great rock fortress of Gibraltar as a reward, were reported by foreign observers in Rome today.

The fascist press bluntly wrote of Spain as a potential ally, lending credence to the report.

By this strategy, it was believed that the axis powers hoped to gain control of the Mediterranean—probably by storming Gibraltar from the rear through Spain—and thus tighten a blockade stranglehold on the British empire.

German Foreign Minister Joachim von Ribbentrop and Italian Foreign Minister Count Galeazzo Ciano, meeting in Rome, also were reported discussing a post-war division of Africa and "the fate of those African peoples who will have been freed from British tyranny," as one Rome newspaper phrased it.

Meanwhile, Berlin reported that German raiders were striking hard at London again, bombing facilities of the southern railway in London and other military objectives.

Nazis Rehearse Landings

English military quarters said an estimated 200,000 German troops are now rehearsing landing "invasion exercises" along the Norwegian coast, but declared that the R. A. F.'s stubborn defense plus the "proven vulnerability" of the Nazi light tank to British two-pound anti-tank guns had upset Hitler's invasion plans.

"Hitler knows his light tanks are vulnerable," it was said, "and he has no means of bringing over his heavy tanks."

Besides the reported 200,000 German troops in Norway, Hitler has other great legions massed along the channel coast stretching from Denmark to the Bay of Biscay.

Run Into Aerial Ambush

A mass assault of 200 German warplanes rain into a cloud-hidden ambush of R. A. F. fighters over the Dover "Hell's Corner" coast today while London's millions, huddled in the dim light of air-raid shelters, read in their morning papers.

OUR COUNTRY

Eleventh of 24 articles on "Our Country," written exclusively for NPA Service and Dixon Evening Telegraph by the nation's most famous authors.

BY ROBERT P. TRISTRAM COFFIN
Author of "Captain Abby and Captain John," "Lost Paradise," "Strange Holiness," etc.

The trouble with us Americans lately is that we have imported too many ideas and fears from Europe.

We have allowed our intellectuals to bring overseas the words Capital and Labor and the great servitudes behind them and apply them to a universally hard-working people. The Yankee sea captain used to be the sailor who worked hardest, of all the crew. The sea captain's wife used to be able to do a big washing and ironing and mending and then put on silks and go to parties in the evening. She was a new kind of lady in civilization.

The children of that captain and his wife are still here. The vast majority of Americans still work their way, whatever estates they may inherit. Most Americans who

were in Dixon Tuesday afternoon.

Charles Gibbs and Dick Meade were Mendota visitors on Tuesday evening.

Antone Heafner visited at the Edgar Heafner home near Compton Monday.

Word has been received that Lee Lewis and Mr. Kieth are enjoying some good fishing at Kenora, Ontario, Canada, and are staying at Granite Lake Camp.

Harvey Baker received word from his audition at the Kimball building in Chicago and intends to go back for another audition for the same program in the near future.

Mr. and Mrs. C. C. Case and Mrs. Ruth Gorton were supper guests at the Mr. and Mrs. John Edwards home on Tuesday evening. The event was held in honor of Mrs. Case's birthday.

go to college now work their way through as surely as their fathers did when they came driving their estate on the hoof, in a yoke of oxen, to the college door. And those who have tried to persuade us that there is one set of Americans who work and another who sit back and live off the fat of the land and the sweat of others deserve to be hanged.

For if they talk long enough, there will arise bricklayers and farmers whose sons will remain bricklayers and farmers and not go on to become presidents and doctors who will breed sons good at laying brick and farming again.

We have let foreign ideas about the stigma of labor come in. The hammer and sickle belong to us as symbols, not to Russia. The beehive and the heaver belong to our state papers instead of the Roman bird of prey that happens to be there. Our Great Seal ought to be an ear of Indian corn.

We have allowed a few snobs to talk about racial superiority in a country built in its beginnings and through its history out of a score of different nationalities and strong with the strength of the best in them all.

What we need to do is to recover our old solitude, our old assurance, and great pride. We need to get back to our fathers' belief that any man who works hard

and stands up straight and independent and bosses his own soul, no matter what race he comes from, is worth all the machines and kingdoms and theories of statecraft in the world. Faith in hard-working manhood is what we have grown by. If we keep that faith, Democracy will be safe from all the buzzards of Fascism and Nazism and Communism on the face of the earth. For those buzzards feed on carrion, where the people are dead or marked for death. Where people are really alive they are never found.

We know what we mean when we sing, from childhood to old age, that song of freedom "America," says Booth Tarkington in the next article of this series on "Our Country."

BRINGS DISCOVERY
A curious skin bandolier worn by African natives led to the discovery of the animal known as the okapi. For a long time, such bandoliers were the only bits of evidence pointing to the existence of such an animal.

SMALL, BUT HANDY
The backbone of the West African shrew, an animal less than a foot in length, is so strong that it can support the weight of a heavy man without injury. It is unlike that of any other animal in the world.

Date for Hicks-Slagle Bridal Is Set for Nov. 6

The secret of Miss Mary Kathryn Slagle's wedding date to Wallace Hicks, which has been set for Wednesday, Nov. 6, was revealed last evening at dinner when Mrs. Earl Slagle, Sr. of 815 East Chamberlin street entertained with an announcement party for her only daughter. The special news reading "Wallie and Mary, Nov. 6," was found written on placecards, which were appropriately decorated with a yellow cat emerging from the traditional "bag."

Dinner was served at 6 o'clock at a table centered with a large gold ring encircled by small yellow chrysanthemums, with a single white aster for a "solitaire." Four ivory bowls contained pastel asters and gladioli, and at either end of the table were yellow tapers in two-branch candelabra.

A miniature bridal couple topped the yellow and white cake served with the dessert course. Miss Lorraine Giannoni received the thimble concealed in the cake. Miss Janice Brandt discovered the ring, and the third symbol, a dime, was found by Miss Slagle.

The guests played hearts at two tables, with Miss Brandt and Miss Betty Moerschbacher receiving the favors. Others playing were Mrs. Robert Coakley, Miss Giannoni, Miss Kathryn Furlong, Miss Frances Crawford, Miss Dorothy Cromwell, and the bride-to-be.

Miss Slagle and her fiancé first met in Dixon high school, from where both were graduated three years ago. She is employed in the auditing department of the Illinois Northern Utilities company. Mr. Hicks, who is a son of Mr. and Mrs. Wallace Hicks, Sr.

GEORGE WASHINGTON SAID:

"Excessive partiality for one foreign nation and excessive dislike of another cause those whom they actuate to see danger only on one side, and serve to veil and even second the arts of influence on the other. Real patriots who may resist the intrigues of the favorite are liable to become suspected and odious, while its tools and dupes usurp the applause and confidence of the people to surrender their interests." From the Farewell Address.

The World We Face

The United States is about to embark on a military program the like of which has never been even proposed, let alone achieved, in peace time.

At the moment, eyes are so riveted on London that one thinks of preparedness only in terms of the death-struggle between Britain and Germany. But the sober truth is that the whole world is today in such a state of turmoil that even regardless of the British-German war the United States would be forced to look to its armor. Look about the world and see what the United States confronts:

1. Germany has conquered the continent of Europe and now strikes at the heart of the centuries-old British empire.

2. Japan, after three years of undeclared war and conquest in China, now poises to spring southward through Indo-China. The whole balance of the Far East has been upset, with what upshot no man yet knows.

3. Russia, having engulfed three countries and large parts of two others, licks its chops at the prospect of still greater spoils.

4. Italy now makes its bid for widespread conquest in Africa, and at a Mediterranean dominance that may change the whole of southern Europe and the Near East.

5. Mexico may be plunged once more into civil disorder.

6. The Western Hemisphere tries to rally itself to united defense, but it is clear that any United States weakness will undermine close and friendly relationships that are vital to security.

In the face of such a prospect, it means a threat to no particular country or people that the United States resolves to cultivate its strength. The young men who go to camp with the National

Guard or with the new selective service draftees go in no mood of menace to anyone. They go with a quiet determination to defend their own against any menace.

We muster our strength. They march under the Stars and Stripes. But behind the national banner might march also that banner of Revolutionary days, the banner with the coiled serpent and the motto, "Don't Tread on Me!"

"To Hell With Chicago"

Nothing said by Wendell Willkie in his Chicago-land tour afforded more pleasure to his political opponents than that phrase, uttered by the candidate, during a stop in Cicero.

Reporters on the anti-Willkie newspapers were out, not primarily to make verbatim reports on the candidate's speeches, but to catch him napping. No sooner was the unfortunate statement made than these reporters rushed to the phone and started the presses roaring.

"To hell with Chicago!" None of these goat-getters was anxious to give the candidate the benefit of the doubt, and to interpret the explosion as a slap at the Kelly-Nash political machine, which has made Chicago notorious throughout the country for its activities.

The boys simply lifted that single sentence out of its surrounding words and used it alone in a headline so as to make it appear that Willkie was consigning the whole city to perdition; that he had inspected it, and wanted none of it, and no Chicago support. Obviously that was untrue. If Chicago ever arrives at the tropical destination Willkie mentioned, it will be because of the activities of political gangsters, grafters and corruptionists who make it unsafe even to go to the polls in some sections unless you have the password.

The lifting of a single sentence from a text is an old political trick to discredit opponents and it sometimes has temporary effect, especially if the person assailed chooses not to resort to the same cheap trickery.

Some very constructive political speeches could be destroyed in their effectiveness by this method of reporting, and no doubt even Lincoln would have been vulnerable to this form of attack.

In Chicago, however, it boomeranged to a certain extent. It made a lot of people read the Willkie text who otherwise might not have read it—and they found out what the candidate really meant.

Protect the Workers!

The devastating explosion at Kenvil, N. J., which took the lives of 47 powder factory workers is a matter of deep concern to every man, woman and child in the country.

It is too early to say whether sabotage had anything to do with it or not. All we know is that in the days of 1915-1916 a large number of such catastrophes were traced to the work of saboteurs directed by foreign sympathizers and in some cases by foreign governments. No pains should be spared to run down the exact cause of this catastrophe.

The workers who died in this blast gave their lives in the preparedness effort just as surely as if they had been in the military service. Explosive-making is a hazardous job at best, but doubly so in these days. The government, federal and local, must spare no pains to protect the lives of those who have a part in this dangerous phase of the defense drive.

News Behind THE NEWS

By PAUL MALLON

(Distributed by King Features Syndicate, Inc., reproduction in whole or in part strictly prohibited.)

Washington, Sept. 19.—A buoyant effect on business—especially the consumers goods lines such as daily advertised in the papers—will be wrought by the draft, Mr. Roosevelt's economists have informed him. The million men who are to be taken out of unskilled phases of business for a year in the army can be replaced from the great army of unemployed, they figure. Net result, economically, would be to give a million men between \$20 and \$30 a month more purchasing power (the pay of draftees). This money unquestionable would flow mainly into the consumers line of daily living needs.

The tremendous cost (Roosevelt has asked for nearly \$2,000,000,000 the first year) will be financed by treasury borrowing, which gives the draft a further inflationary character.

Strange as any episode in this unorthodox war was the escape of six French warships into the Atlantic under the silent guns of the British at Gibraltar, not in the blackness of night but on a sunny afternoon.

The deal on this one was so obviously deep that explanations have been made. Suggestions have been made the French wanted to avoid seizure of the vessels by Hitler, or intended to join the British fleet. This sounded a little too unorthodox for credence in view of the established attitude of the Vichy government and the fact that Hitler's gun is still held at its forehead.

A more plausible account has speed through to offices here. The French are desperately in need of oil.

The scarcity of oil is so serious that practically all forms of mechanized transportation have been stopped in the unoccupied area. The six ships were so low that they were unable to keep in commission much longer. Their officers dickered secretly with the British for safe passage through Gibraltar to Dakar to pick up large French stores of oil there on the promise of returning to their base at Toulon from their mission as soon as possible.

The grapevine has hinted there was a further understanding with the British about perpetuating the neutral status of the ships for the duration of the war.

Herman Goering's night ride over London was described by Berlin oracles as an inspection trip to let the reichsmarshal see the damage effected by his air corps. The oracles did not explain how Goering could inspect damage from thousands of feet in the air at night. The impression was left that he must have carried a pocket flashlight.

Significant tell-tale mark of the trip was that it came the night after his airman received their worst trouncing of the war. British claimed nearly 200 planes shot down that day. Goering apparently is having morale trouble with flyers.

Note: All officialdom, from Roosevelt on down, is still getting figures on plane casualties corresponding with those of the British and far from the claims of the Germans. This may not mean much, however, as all their figures come from London.

A large rectangular plot in the dead center of the country has been picked for location of new defense industry plants, in a region which is shortly to come out of the bureau of census and agricultural economics. These bureaus have been working on a study labeled "decentralization of industry" for about a year. Analysis is based on census statistics since 1890 concerning the location of labor supply and consumption in the protected area between the Rockies and the Appalachians.

Type of men being chosen by Latin American countries as representatives to the coming shipping conference here October 2 is not encouraging. American officials to expect much from the meeting. Most of the good neighbors have named diplomats on the ground who have no specific knowledge of the problem. While they requested the conference for reduction of shipping rates, their activity so far has sponsored the impression that they merely expect another contribution from Uncle Sam.

AND it was. While Sue Mary chewed her pale lips in frantic horror, Vera calmly took the papers and headed for Mr. Clark's office.

"You mean you're going right in there and face him?" Sue Mary asked numbly.

"Of course. And nothing's going to happen, my dear. They'll simply think I'm a stupid fool and they'll be so glad to get the darn thing back that they won't bother with me."

Which apparently was exactly what happened. Sue Mary decided, watching Vera come back in a few moments and continue calmly with her work.

"If I made such a mistake I'd never get off that easily," she told herself.

Funny how rightly Vera had analyzed the situation, too. Sue Mary made a mouth. Her mind never worked so rationally when things happened.

Vera astounded her more and more. Her training with the YP had given Vera an exterior that nothing could crack. Sue Mary wondered if anything ever could penetrate that assurance.

Annual Pilgrimage to St. Peter's Church in Grand Detour Sunday

The Rev. Irwin St. John Tucker, pastor of St. Stephen's Episcopal church in Chicago, will be the guest preacher at St. Peter's church in Grand Detour Sunday afternoon when members of the Northern Diocese of the Diocese of Chicago, comprising the cities of Rockford, Freeport, Sterling, Belvidere, Galena, Savanna, Morrison, Sycamore, DeKalb and Dixon gather there for the annual Grand Detour pilgrimage.

St. Stephen's church, familiarly called "The Little Church at the End of the Road," is widely known as a shrine of poetry, music and art. Its walls are covered with paintings by famous contemporary artists. The churchyard is known as "The Garden of Memory." Baptisms, weddings, confirmations, and other events in life are marked by the planting of a shrub or tree in the garden.

For years, in addition to his church work, the Rev. Mr. Tucker has served on the staff of one of the Chicago newspapers.

The service on Sunday begins at 4 o'clock.

OUT ON A LIMB

Experience should have taught us better—for we know the feeling of that cactus bed which awaits those who insist on crawling out on a shaky limb. But we put our geography book where it will do the most good—and here goes. Rock Falls over Pekin tonight. We don't know much about Pekin (no puns, please) but we do know about Rock Falls. Dixon over Rockford East. It's not just loyalty, either. Amboy over Freeport B team. We watched Coach Jim's boys work out the other night and with a determination to win and up against their own weight class, we think they might do the trick. Crystal Lake over Belvidere. The Boone county warriors took such a rap on the chin from Dundee and we met a former Crystal Lake player this week. If he's anything like what they have now, it's too bad for the North Central conference team. Rochelle over DeKalb. This is dangerous and not likely to cement any friendship with DeKalb, but Jim Trees declares his defending champions are minus their threats of last season and we liked Rochelle in the practice scrimmage here. Mendota over Morris. Did you see what Mendota did to De Pue? That's why. Sterling over Morrison. Ted Scheid's boys pulled a neat one over Rock Falls and the latter team was no slouch. Mt. Morris over Mt. Carroll. Wendell Schrader's boys looked good here, and why should they change in one week? Oregon over Winnebago. The Hawks are in there to tear 'em apart this year and the Driver team looks good on paper—which sometimes means a lot. Polo over Stockton. The Marcos are plenty tired of taking it on the chin. Princeton over DePue. For almost the same reason as we said Mendota over Morris.

LEATHERPUSHERS

Ten young Rochelle boxers are competing in the American Legion amateur championship tournament in Rockford. The boys, under the direction of Fred Warming, are: John and Roger Cote, Bob Eurbanks, Harry Roberts, Whitey Henry, Frankie Marthin, Joe Doner, Irving Erickson, Amos Eghand and Francis Doner.

CITY GOLF TOURNAMENT PLANNED

Winners in the current Plum Hollow and Dixon Country club golf tournaments will meet in a city event Oct. 6 for the Dixon championship. Competing in the event will be the winners and runners up of the A, B and C flights in the present club contests. Eighteen holes will be played at Plum Hollow in the morning with the final 18 at the Country club in the afternoon.

SOUTHLAND CHAMPIONS

Ashton's high school football team won the championship of the Route 72 conference Tuesday afternoon by defeating Franklin Grove, 11 to 9. The champions scored eight runs in a wild second inning.

KEN DETWEILER WINS GOLF EVENT

Ken Detweiler, Dixon Country club golfer, carded low score with a 67 in the annual "Play Day" event at Rock River Country club at Rock Falls yesterday afternoon. About 35 club swingers from the surrounding clubs competed in the tournament and Red Meinke of Earlville was second low with 72. Blind hole prizes were won by John Verona of Oregon and Ray Wilbur of Dixon.

Coach Bo McMillin Tosses Crying Towel Aside to Praise His Team

Chicago, Sept. 20.—(AP)—It could be the heat, of course, but strange things are happening in Western Conference football camps.

First, Wisconsin Coach Harry Stuhldreher wasted little time in climbing a limb to sound the warning words of "Watch Indiana" and predict the Hoosiers would "give them all a headache".

Next, Indiana Coach Bo McMillin, not at all in keeping with his copyrighted "pore little boy" yarns, stepped out on the limb to acknowledge the tribute. His team really is good, he said. His poor little boys have grown up.

"We should be more experienced, stronger, faster," he declared. "We will have more reserves in every position. . . . The most since I came to Indiana".

And now Ohio State's Francis Schmidt is crowding the limb with glowing word pictures of his fine ball carriers.

Schmidt always was the Big Ten's leading exponent of the razzle dazzle. Last year it paid off the first undisputed title the Buckeyes have won under Schmidt. Now Ohio State fans have his word that the champs will have another of those "now you see it, now you don't" backfields.

In fact, he indicated the stunt would reach new peaks. Schmidt has 22 letterman back, including a standout backfield

that is intact except for Frank Zadowney, hard blocking right half, who was graduated. The veteran backs include Don Scott, Jim Strausbaugh and Jim Langhurst. To round out a quartet Schmidt has this array of speedsters to pick from—Dick Fisher, Paul Sweeney, Jack Graf and Tom Kinkeade.

More Normal In Other Camps

The situation was more normal among other camps, although the Illinois regulars showed unusual symptoms yesterday by scoring four quick touchdowns against reserves, three of them by sophomores. A return to fundamentals and more night practice was on the Minnesota program as a result of hot weather. The heat also restricted Wisconsin practice.

Coach Lynn Waldorf dug in to find reserve power for Northwestern. Reserve strength also was a problem at Michigan, where two tackles were out with injuries, leaving only sophomore Al Wistert and Junior Reuben Keltie available for these positions.

In a short scrimmage at Indiana the work of sophomore backs Al Rucinski and Earl Doloway pleased McMillin. Eddie Anderson shifted his No. 1 Iowa lineup, replacing Halfback Bill Stauss with Jim Youel. Purdue again drilled on forward passing in preparation for a regulation game against the freshmen Saturday.

OPTIMISM SWEEPS DIXON AS DUKES INVADE ROCKFORD

Freshmen - Sophomores Will Open Program in 15th Ave. Stadium

There's something almost cannibalistic about rabid football fans, and the throng which will follow the Dukes to Rockford tonight are licking their chops and muttering, "It could be—it could be, all right." Hungry for a victory over Rockford, the Dixon followers are remembering the sweet taste of a 12 to 7 triumph in 1936 and with a promising 1940 team the harvest looks good.

The optimism which is sweeping the Dixon camp has caught fire and spread out to the fans with the result that tonight's troupe of supporters to the 15th Avenue stadium is likely to be the largest for sometime.

"A Dangerous Thing"

Like a little knowledge, optimism is sometimes a dangerous thing, and although the Dukes are favored even in Rockford circles, the larger city has a way of jinxing the locals by sheer force of numbers. Added to Rockford East's advantage is that of weight. The hosts' line will average about 173 pounds as compared to a 159 average in the Dixon line. The Rockford backfield averages about 162 while Dixon tips the scale with an average of 156. To overcome this disadvantage, Coach C. B. Lindell of Dixon is relying on the speed and experience of his Dukes.

In an 11th hour discussion of his team's preparations, Lindell was enthusiastic over the passing ability of Padilla, and although the backfield was not named for the starting lineup, he is almost certain to see action tonight.

Dress Rehearsal

Last night the Dukes worked out under the arcs on the home field to complete final touches for tonight's invasion and Lindell used the probable starting lineup to run through scrimmage against a second team equipped with Rockford plays.

Lindell left unchanged the starting lineup which was published last night. That is: Bugg, le; Vadle, m; Weaver, lg; Shiaras, of; Travis, rg; Quick, rt; Shultz, ret; Walter, qb; Vaughn, lb; Kelly, rb; and Sanborn, fb.

Harry Palmer, starting his first season as Rockford mentor, reports that Dahlstrand and Scheel, two sophomores, will be in the lineup tonight. Scheel, a 205-pounder, has been named for center and Dahlstrand, 171 pounds, will play at right guard. Included in the Rockford lineup are two veterans who are certain to give the Dukes considerable trouble. They are Frank Alonzo, 185 pound left halfback, and Frank Vella, 150 pounds right half.

Preliminary Game

Opening the show tonight will be Coach Marvin Winger's freshman-sophomore team which will clash with the Rockford East underclassmen starting at 6:30. The varsity game is scheduled for about 8:15 o'clock and will be broadcast over a Rockford station.

Tigers and Indians Are Running Neck-and-Neck in Pennant Race

By JUDSON BAILEY

Associated Press Sports Writer

The fantastic American League pennant struggle reached a new crisis today as the Cleveland Indians and Detroit Tigers came up to their series with each other in an absolute deadlock—85 games and won 61 lost.

Also for the first time it was possible to say positively that the conflict has become a two-club contest with nothing counting but their own mortal combat.

The Chicago White Sox have been mathematically eliminated, not by the standings but by the schedule, and the New York Yankees have been pushed to the brink for the same reason.

These are the standings today:

	W	L	Pct
Cleveland	85	61	.582
Detroit	85	61	.582
New York	80	64	.556
Chicago	79	67	.544

Ordinarily a club four or six games behind could at least hope for the clubs above to lose all their games. In this case, however, the schedule makes that impossible and the only benefit the Yankees or Sox could get would come from Detroit and Cleveland breaking even against each other.

That would mean three more games lost for each leader. Cleveland still has two games with the St. Louis Browns and Detroit two with Chicago. If the leaders lost both of these, that would leave them in a tie at the finish with 86 games won and 66 lost. The White Sox already have lost 67 and therefore are eliminated.

Yankees' Only Chance

If the disaster outlined here should strike both the leaders, the Yankees still would have to win 8 out of 10 games to tie. Such an outcome is so remote that it might as well be dismissed today and let the dead past bury its dead, including the four-times World Champion Yankees.

The Tigers are getting too ferocious these days to handle peaceably and they have to be considered favorites for the three-game series on their own field this week-end. They massacred the Philadelphia Athletics yesterday 13-2 and 10-1 with a couple of secondary pitchers and had Buck Newcom ready to oppose Mel Harder today.

In their first game with the A's, Rookie Floyd Geibel issued eight scattered hits while Detroit got 13, including homers by Hank Greenberg and Rudy York, each of whom batted in five runs.

In the second game Dizzy Trout gave only four hits and the Tigers collected 13, including homers by York and Pete Fox.

This made 17 consecutive games in which Detroit had hit one or more home runs.

Emmert Names Knacks' Lineup for Sunday Tilt

Having won a game apiece, the Dixon Knacks and the Peru Parks will meet for the rubber game here Sunday afternoon at Reynolds field with the hometown hoping the event doesn't snap back in their face.

After recent conquests, the Parks team has become known as one of the mightiest baseball clubs in this part of the state and only last Tuesday night they handed their city rivals, the Peru Merchants a terrific drubbing.

In the first meeting of Dixon and the Parks, the locals won a 4 to 4 decision here. In a later night game at Peru, the Parks trimmed the Knacks, 13 to 1.

Today Manager Hi Emmert named his lineup and batting order for Sunday's game as follows: Kuhn, lf; Flanagan, 3b; Zera, ss; Shires, cf; Prestegard, c; Slain, 2b; Bus Carlson, 1b; Court-right or George Carlson, rf and a pitching staff of Bevilacqua, Howe and Reeves. Other men on the team include Kirkey, a utility player, and Bill Howe who may be substituted at first base sometime during the game.

As an additional feature of the game, the Knacks have invited the members of the Veterans of Foreign Wars team to assist in the batting practice in a chance to work out with the Knacks.

The game is called for 2:30 o'clock.

REDS' PITCHERS CREDITED WITH WINNING FLAG

Cincinnati, Sept. 20.—(AP)—They never showed much power at the plate: No one ever lunged the tag of "murderer's row" on any part of their batting order, so just what made the Cincinnati Reds a team that came through to a second pennant in two years? Pitching, indubitably—pitching, and that indefinable something, the "what-it-takes" to come from behind time after time and win.

Ninety-four wins, 38 of them by a one-run margin—but that, Joe Jan insists, is only part of the story.

The Reds have 10 pitchers—and every man-jack is on the "black" side of the ledger. Two, Paul Derringer and Buckie Walters, have 20 wins each; Gene Thompson to date is two up on his freshman string of 13 victories in 1939, and the three, plus Jim Turner and reliever hurler Joe Beggs, have won 79 games and lost 39 of the Reds' 47 defeats.

As the champions turned west after sweeping the seaboard—something no Red team has done in years—these items reflected just what hurling has meant during the season's drive:

Walters' Record

Walters, with 20 wins and 9 defeats, has less than an even break with only one club. He dropped three out of five to his old teammates in Philadelphia.

Derringer won three but lost four to Chicago and has a 2-3 record with New York, as has Gene Thompson with Brooklyn.

Turner, curiously, has won one and lost two each to Boston, Brooklyn and St. Louis, and Moore's records shows a loss to Boston and three to New York among seven defeats. He has chalked up eight wins.

Beggs, one-time Yankee, holds a high upper hand over all comers with 12 victories and single losses to the Dodgers and Phils.

A look at the batting percentages shows only two regulars, Ernie Lombardi and Frank McCormick, hitting above .300. Another, Rookie Mike McCormick, has played most of the season and is hitting .288 but otherwise the Rhinelanders have ranged from Billy Myers' .195 to Bill Werber's .276.

ROUND-UP HOLDS LEAD IN BOWLING LOOP LAST NIGHT

Bondi Sets New Record For High Series in Thursday League

The Dixon Telegraph keepers were all dressed up last night—and had some place to go. The well-groomed feeling that goes with the acquisition of new shirts, composed the newbies and they won three straight games from Cahill's Electrics in the Commercial League games at the Dixon Recreation.

The Round-Up, however, still holds the leadership of the league by virtue of the one game won from Reynolds Wire. Three teams are now clustered around second place and three more for third.

Going like a house afire, Friday Shultz of The Telegraph paced his boys with a 539 series while Big-gart sparked the Electrics with a 475 series.

Bondi Sets Record

The Candy Box won two games from the National Tea, overcoming a big handicap margin. Bondi rolled a 571 series to lead the sweets shop and captured high individual series honors from Brabazon with a difference of three pins. Hines' 445 was high for the tea men.

Cross Dairy won two games from Sparky's Fenders. The 476 series of Missman was high for the winners and Campbell paced the active bowlers among the losers with 424.

Reynolds Wire won two games from the leading Round-Up quintet as Fordham "Flashed" a 556 series for the winners and Moersbaecher counted 487 for the losers.

High games last night included those of: Fordham 203; Bishop 201; Bondi 231.

Records for high team games and series remained in possession of the Reynolds Wire team.

LOOKING FORWARD

By FRANKLYN WALTMAN

Publicity Director, Republican National Committee

The sweeping Republican victory in Maine has destroyed at one stroke the hoped-for effectiveness of reams of Democratic propaganda directed at hiding the weakness of the New Deal campaign by attempting to show the Willkie campaign had slumped.

In recent weeks the press has been deluged with material originating from the Democratic National Committee and from other New Deal sources, containing stories of rifts in Republican ranks and intimating that Mr. Willkie's campaign had "missed the bus," to paraphrase a remark by Mr. Chamberlain at the time of Hitler's invasion of Norway. It made good campaign reading even though it was backed by no proofs and carried no conviction. Carrying both proof and conviction, however, was the overwhelming Republican victory in Maine. There the Republicans made a clean sweep by margins wider than at any time since 1928 when the party's national ticket won by a landslide. When Maine goes Republican as big as it did this month, the country always goes Republican in November.

New Dealers Bog Down
Instead of it being the Republican campaign which has showed any diminution of pace or results, there are abundant signs to show it is the Democratic effort which has bogged down to a point that is causing alarm in the New Deal ranks. From the bewildered "Boss" Flynn, up and down the line to the president himself.

In the first place, great store was set by the New Deal command on the speech Harold L. Ickes was to deliver in reply to Mr. Willkie's acceptance address. This turned out to be not only a dud, but a boomerang. It not only failed to be an answer to the Republican presidential nominee in any sense, but was so false in its promises and so vituperative in language, as to bring wholesale condemnation from the press of the entire country.

Then high hopes were held by the New Deal for the effectiveness as a campaigner of the vice presidential nominee, Henry A. Wallace. But Mr. Wallace has failed to come through. His effort to make it appear as though Hitler was to be Mr. Roosevelt's opponent at the November election and not Mr. Willkie missed the mark. In subsequent speeches which have caused scarcely a ripple of comment Mr. Wallace

has been futilely barnstorming the middle west and trying to put over the idea that the Republican party is the party of appeasement.

Wallace Falls Flat

This line of reasoning, based only on the fevered imagination of the former secretary of agriculture, has fallen equally flat.

Mr. Willkie called the turn on it when he said:
"If appeasement means working out compromises with dictators; if Mr. Wallace intended to apply that to the Republican party, he was 100 per cent wrong, because if I am elected president of the United States there will be no appeasement with any dictator."

"But if Mr. Wallace meant to say the Republican party is the party of peace, then he spoke the truth, because I shall never lead the United States into any European war."

"Non-Political" Talks?

Nor has the president's camouflaging of his radio addresses and other speech-making as "non-political," while refusing to meet the challenge of real debate on the issues confronting the country, helped the situation any.

No wonder, then, that the New Deal campaign has been a bitter disappointment to the hordes of bureaucrats and office-holders who are desperately trying to hold on to their jobs with the help of Flynn, Hague, the Kelly-Nash machine and other professional, full-time politicians, who make the New Deal wheels go round. Now comes the Maine election in which, after the New Deal had fired its very biggest guns in the form of the speech by Senator Robert F. Wagner and Securities Commissioner Paul V. McNutt, the Democratic party suffers its most complete rout in that state since 1928, when its national ticket went down to ignominious defeat.

Against these most strenuous efforts by the New Deal to make a good showing in Maine, the Republican National Committee felt so justifiably confident of the outcome that it deemed it unnecessary to spend money or send speakers of national prominence in the contest there.

The Maine results will put a permanent quietus on the talk of a Willkie slump. Mr. Willkie is still "ahead of the trend," as he expressed it, and that trend, begun in 1938, will sweep all before it in a national Republican victory in November.

Series Between Tigers, Indians Is Super Show

Detroit, Sept. 20—(AP)—The props were placed and the actors and the audience were ready today for baseball's super-super spectacle of the year—the Cleveland Indians vs. the Detroit Tigers with the American League pennant as the probable prize for the winner.

Tied as few teams have ever been in the waning days of a baseball season, the clubs open a three game series at Briggs stadium this afternoon that is expected to draw upward of 140,000 customers before its conclusion on Sunday.

The weather prediction was "cloudy with scattered showers."

Each team has won 85 and lost 61 and each club still has eight games left to play. The closeness of the struggle is further illustrated by the fact that the teams have divided 16 games this year.

From the veteran Tigers and the younger Indians came the word that they are well conditioned for the big test. Detroit has Louis (Buck) Newsom, Lynwood Rowe and Tommy Bridges (three hurlers the Indians haven't beaten this season) ready to work in order. Cleveland will retaliate with Mel Harder, Al Milnar and Bobby Feller. Feller, a mystery to other clubs, has been beaten three times by Detroit.

Attendance Predictions

Tiger officials predicted an attendance of between 30,000 and 40,000 today and sellouts of more than 55,000 for Saturday and Sunday.

Newsom, the self-appointed spokesman for the Tigers, assured his public that he would take care of the Indians today.

"I've pitched against that Cleveland team twice this year and beat 'em both times," Newsom said. "As soon as they show up Ol' Bobo will take care of 'em."

Newsom has won 19 games and lost four this season but hasn't been too good in a couple of recent starts.

Harder, another veteran right-hander, has always been a difficult moundsman for Detroit to hit.

The Tigers practically blew the Indians out of Briggs stadium here earlier this month when they utilized homers to sweep a three game series and come from four games back into contention for the pennant.

Storm signals for the Cleveland pitching staff went up yesterday when the Tigers made 27 hits good for 51 bases in sweeping a double header with the Philadelphia Athletics 13 to 2 and 10 to 1. Meanwhile, Cleveland was defeating Washington 3 to 1.

Two Former Big Shots In Murder Ring to Die

New York, Sept. 20—(AP)—Two former big shots in Brooklyn's kill-for-cash syndicate must pay with their lives for strangling a small-time bookmaker, drenching his body with gasoline and putting a torch to it.

They are Harry (Pittsburgh Phil) Strauss, 33, and Martin (Bugsy) Golstein, 34, convicted by a jury last night of the "contract" slaying of Irving Feinstein on Sept. 4, 1939. No date for formal sentencing was set.

They are Harry (Pittsburgh Phil) Strauss, 33, and Martin (Bugsy) Golstein, 34, convicted by a jury last night of the "contract" slaying of Irving Feinstein on Sept. 4, 1939. No date for formal sentencing was set.

However, Fred Perry, runner up to Vines last year, Don Budge, Vincent Richards, Bruce Barnes and even the old master, Bill Tilden, now 47, will be on hand.

LEGION RECOVERIES

Boston—(AP)—The American Legion reported that it recovered \$137,413 during the year in government benefits of various kinds for Illinois World War veterans of their dependents whom it represented in claims arising as a result of war services.

Around Illinois

Old Clothes for Mr. Nickell—

Champaign, Sept. 20—(AP)—V. L. Nickell, superintendent of schools, was forced to eliminate a teacher's job this year because of economy. The teacher, Juanita West, was transferred to another job. The other day she met one of her former pupils.

"Say ain't you gonna teach at our school this year?" he asked.

"No, Mr. Nickell didn't have the money for me to teach there, so I'm at junior high," she replied. "Oh, yes, he has money," retorted the lad. "I saw him wearing the swiftest new green suit the other day."

Sunday School Fans—

Tuscola, Sept. 20—(AP)—A party of young folks traveled 90 miles to attend Sunday school here last week. They came from Mason and were on time when services started.

In the party were eight who had converted a farm truck into a bus by installing seats and cushions. This group frequently visits far distant Sunday schools.

Highway Flowers Planned—

Decatur, Sept. 20—(AP)—Forty pounds of hollyhock seed—enough to plant most of Macon county's roadsides—has been gathered by Boy Scouts. The seeds will be planted along highways this fall with the blessing of Highway Superintendent Alan N. Buck.

Success Story—

Champaign, Sept. 20—(AP)—James E. Osborn of Pana came to the University of Illinois in September, 1934, and immediately got a job working for his meals at the Southern Tea room.

Osborn worked there steadily until he was graduated in June, 1938. A few days ago he heard the tea room was for sale. He bought it and now is running the place that befriended him six years ago.

What, No Deposits?—

Rockford, Sept. 20—(AP)—Republicans recently opened headquarters on the main floor of a defunct bank building.

Deputy Sheriff Lynn Cate, working at headquarters, said quite a few persons dropped in the first afternoon under the impression the bank had reopened. Most of them wanted change for bills, he said, but no one tried to

make deposits and none asked for loans.

Fast Paint?—

Lincoln, Sept. 20—(AP)—Seven gallons of white paint were recently carried to the home of Mrs. Ellen Schoof. It was distributed among 32 painters who wished to see how long it took to paint a house.

They found out. In exactly 29 minutes, the seven gallons of paint was a coat on the five-room house.

How They Going to Pick It?—

Freeport, Sept. 20—(AP)—A stalk of corn is growing from the eavespout of the Second Presbyterian church, many feet above the street. The stalk is about five feet high.

It is believed that a bird dropped a kernel of corn in the leaves and soil in the spout early this spring.

Adage Challenged—

Olney, Sept. 20—(AP)—Mr. and Mrs. Homer Kimmel put all their eggs in one basket and started their car across the Baltimore & Ohio railroad tracks en route to their home.

A freight train struck their automobile, spinning it around and throwing Mrs. Kimmel against the windshield. The eggs in the rear seat, escaped damage.

TENNIS PROS OPEN TOURNEY AT CHICAGO CLUB TOMORROW

Chicago, Sept. 20—(AP)—Professionals in the tennis playing business open a nine-day stand at Chicago's Town and Tennis club tomorrow to determine their 1940 title holders.

Virtually all the big names in the professional ranks were entered for the 14th Annual Lawn Tennis Association tournament, the chief exception being Ellsworth Vines, five time champion, who has deserted the courts for the golf links.

However, Fred Perry, runner up to Vines last year, Don Budge, Vincent Richards, Bruce Barnes and even the old master, Bill Tilden, now 47, will be on hand.

Illinois Soldiers Stop in Capital Enroute to Texas

Springfield, Ill., Sept. 20—(AP)—Feeling chipper about life in the army after a night of sound sleep and a hearty breakfast, the first detachment of Illinois troops en route to training camp rolled out of Springfield early today on the second leg of an 11-day trip by motor convoy to Fort Bliss, Texas.

The detachment consisted of 271 men and five officers of the 202nd coast artillery regiment of Chicago, conveying 63 trucks and a dozen and a half ton anti-aircraft guns. The troops, hot and tired after their first day's trip here from Chicago, slept last night in a dormitory building on the state fairgrounds.

The long motor caravan moved out of the capital this morning after the troops breakfasted in a downtown restaurant. Averaging between 20 and 25 miles an hour on the road, the convoy was scheduled to make daily jumps of about 200 miles and reach the Texas camp Sunday, Sept. 29. The troops will spend tonight in Rolla, Mo.

Many of them rookies recruited in the last few weeks, the troops joked about "saddle sores" from hard seats in the motor convoy when they reached here last night. Most of them tumbled in to bunk early. Reveille sounded at 4 a. m. today.

Visited By Commander
Major Max R. Emmanuel, commanding the convoy, remarked:

"They'll be seasoned troops by the time we reach Ft. Bliss."

Major Gen. Samuel T. Lawton, commanding officer of the 33d division of the Illinois National Guard, paid an informal visit to the fairgrounds camp last night and predicted most of the Illinois National Guard units would not be called up for a year's training until late December or early January.

In Washington yesterday, however, two more Illinois Guard units were summoned to start a year's federal service Nov. 25. They were the 106th cavalry (horse-mechanized), with units in Springfield, Chicago and Urbana, and Company B of the 192d tank battalion, stationed at Maywood, Chicago suburb.

The 106th includes Chicago's famous Black Horse cavalry troop and consists of 447 men and 30 officers under command of Major Mark Plaisted of Springfield.

The 106th will train at Camp Beauregard, La., and the tank company at Fort Knox, Ky.

Construction of a new service station has been started this week when workmen began laying the foundation for the new station on the site of the Woolcott station on the corner of 6th street and Lincoln avenue.

Barrett Recipe

"Take one Kelly, one Nash, a dash of Nudelman, and beat well in November, and we will have honest government in Illinois," was the recipe for good government that George F. Barrett, Republican nominee for Attorney General, gave the voters of DeKalb county, gathered at a large mass meeting in DeKalb Thursday evening.

Continuing, Barrett said: "It is going to take honest voters to carry out the recipe, but it can and will be done."

He continued: "You'll find the fifth column on the election tally sheets so long as the Kelly-Nash gang are allowed to steal votes in Cook county."

In conclusion, Barrett told his audience: "The intolerable corruption of Cook county elections will lead to an eruption in November. Decent citizens have had enough of gang rule."

Other approved resolutions denounced labor racketeering, favored the purchase of Illinois coal mined by the Progressive Mine Workers of America (A. F. of L.), called on congress and the legislature to safeguard the employment interests of draftees; urged additional housing projects and recommended extension of social security benefits to persons not now covered.

It was voted to hold next year's convention in Danville.

RIFLE MATCHES BEGIN AT CAMP PERRY FIRING LINE

Camp Perry, Sept. 20—(AP)—The most hotly contested rifle event in the world—the national 10-man team match—got under way today on Camp Perry's two and one half mile firing line, with 98 squads from all branches of the military service and the civilian ranks participating.

The five-stage event—10 shots slow and 10 rapid at 200 yards, 10 rapid at 300, 10 slow at 600, and 20 slow at 1000—winds up the big barrage Saturday afternoon, four of the stages being on today's program.

Uncle Sam's infantry, winner last year with a score of 2,838 of 3,000 was favored to retain its laurels.

The infantry team won the A. E. F. Rumanian trophy with a 976 of 1,000 score yesterday.

DEACON BILL CREDITS YANKS WITH HELPING REDS BEHAVE

Philadelphia, Sept. 20—(AP)—Those four straight beatings the Cincinnati Reds took from the Yankees in the World Series last fall was a blessing disguise.

GEMS OF THOUGHT

Integrity

No pleasure is comparable to the standing upon the vantage-ground of truth.—Francis Bacon

What we have in us of the image of God is the love of truth and justice.

—Demosthenes

The man of integrity is one who makes it his constant rule to follow the road of duty, according as truth and the voice of his conscience point it out to him.

—Mary Baker Eddy

There is no evil we cannot face or fly from, but the consciousness of duty disregarded.

—Daniel Webster

You need not tell all the truth, unless to those who have a right to know it all. But let all you tell be truth.

—Horace Mann

Nothing is at last sacred but the integrity of your own mind. Abandon to yourself, and you shall have the suffrage of the world.

—Emerson

Student representation on the committee was assured last night by County Judge C. M. Webber who said that three students from each high school would be named to serve. The students will be chosen by the respective school superintendents who also will be included on the committee.
